

# jessica breeden designs design bar

## Current Project

I'm so happy to have been able to help the delightful Emily, owner of Bliss Digital Admin. She wanted a professional, but fun logo and color palette. After we talked through the visions she had for her business, we were able to capture all of the feelings!

This project was so fun! I loved being able to pick out bold, feminine colors and patterns. This digital admin's service list includes editing, word processing, copy writing, and social media management. You can follow her start up journey under #blissdigitaladmin on Instagram!

I thrive when I have a good collaboration - feel the same? Then I want to hear from you! Send me an email and let's see how we could collaborate! Maybe you need brand advice, a design opinion, or to walk through what you might do next, I'm here to collab!

## Featured Print

### Visit the Design Bar!
